

Washington Market Highlights: Fourth Quarter 2023

- Existing home sales fell in the fourth quarter by 7.6 percent to a seasonally adjusted annual rate of 79,790 units compared to last quarter, and fell 26.9 percent compared to a year earlier.
- Building permit activity fell 15.8 percent from a year earlier, totaling 8,074 new units authorized. Of these, 4,260 were issued for single-family units.
- The median price home sold in Washington during the fourth quarter was \$583,200, 2.8 percent higher than a year earlier.
- Housing affordability rose for all buyers and first-time buyers from the previous quarter. The All-Buyer Housing Affordability Index stayed above 100 in 2 of Washington's 39 counties.
- Inventories of homes available for sale totaled 8,939 single-family homes at the end of the quarter, a 34.0 percent decline from the previous quarter and a 20.0 percent decline from a year ago. This inventory level represented a 1.8 month supply, an imbalance, where demand exceeds the supply of homes on the market.

Washington State's Housing Market is a quarterly report to the Washington Real Estate Commission and the Washington State Department of Licensing.

Fourth Quarter 2023
 Issued February 2024

Survey Description

Publication: Washington State's Housing Market is a publication of the Washington Center for Real Estate Research (WCRER) at the University of Washington.

Coverage: At least quarterly, WCRER receives data on single-family home sales from each multiple listing service located in, or providing market coverage to, Washington communities. In 2012, data on nearly 69,000 home transactions were received and processed.

Sales Volume: Estimated total sales value of single-family homes in each county is compiled using a scale factor to transform the MLS sales to market totals. This scaling is required since a significant number of transactions are always completed as "for sale by owner" or are assisted by real estate licensees who do not participate in a MLS. Scale factors were developed by analyzing the relationship between MLS sales and measures of total single-family sales derived from the 2010 American Community Survey and data from individual county assessors. Data in this report represents closed sales transactions.

Sales Price: Median sales prices represent that price at which half the sales in a county (or the state) took place at higher prices, and half at lower prices. Since WCRER does not receive sales data on individual transactions (only aggregated statistics), the median is determined by the proportion of sales in a given range of prices required to reach the midway point in the distribution. While average prices are not reported, they tend to be 15-20 percent above the median.

Movements in sales prices should not be interpreted as appreciation rates. Prices are influenced by changes in cost and changes in the characteristics of homes actually sold. The table on prices by number of bedrooms provides a better measure of appreciation of types of homes than the overall median, but it is still subject to composition issues (such as square footage of home, quality of finishes and size of lot, among others).

There is a degree of seasonal variation in reported selling prices. Prices tend to hit a seasonal peak in summer, then decline through the winter before turning upward again, but home sales prices are not seasonally adjusted. Users are encouraged to limit price comparisons to the same time period in previous years.

Seasonal Adjustment: Volume statistics are seasonally adjusted using the X-11 method of seasonal adjustment originally developed at the US Bureau of the Census and used for adjustment of most economic statistics by government agencies. The procedure includes adjusting for trading day variation—the number of Mondays, Tuesdays, etc., in a particular month or quarter. This type of variation in the data was found to be significant.

Sales in each county are first seasonally adjusted, then aggregated to yield the statewide statistics.

Seasonal indices are based on quarterly single-family home sales activity dating from Second quarter 1994. New seasonal adjustment factors are constructed at the conclusion of each year. Data for the three preceding years are revised using these new seasonal factors.

Seasonally-adjusted annual rate values are based on single quarter sales and indicate the number of sales which would take place in a year if the relative sales pace were to continue. They are not a forecast of annual activity and do not include the sales observations of previous quarters.

Metropolitan/Micropolitan Areas: This report uses the definitions of metropolitan and micropolitan areas by the Federal Office of Management and Budget. Briefly, metropolitan areas are larger communities with at least 50,000 people in the urban core. Micropolitan areas are smaller cities, with 10,000-50,000 people in the urban core. Currently Washington has 21 metropolitan counties in 14 metropolitan areas (or divisions) and nine micropolitan areas. Metropolitan and micropolitan area designations were revised in February 2013 based on Census 2010. Some rural counties are now included in metropolitan or micropolitan areas because of commuting patterns.

Month's Supply: Estimates of month's supply of homes on the market compare the number of total MLS listings at the end of the quarter to the seasonally-adjusted annual rate sales for that county $[(\text{Listings}/\text{SAAR}) \times 12 = \text{month's supply}]$. It is interpreted as how long the current inventory available for sale would be able to meet current demand if no additional homes were listed for sale.

Housing Affordability: Two measures of housing affordability are presented. Each should be interpreted as the degree to which a median income family (or typical first-time buyer household) could afford to purchase the assumed home. The following table lays out the assumptions. In all cases it is assumed the lender would be willing to fund the loan so long as the principal and interest payments do not exceed 25 percent of gross income. Index values above 100 indicate housing is affordable to the specified income group.

	All Buyers	First Time
Home Price	Median	85% Median
Downpayment	20%	10%
Mortgage Term	30 years	30 years
Income	Median Household	70% Median Household
Mortgage Insurance	No	Yes (add 0.25% to mortgage rate)
Mortgage Rate	average of the Freddie Mac 30 year fixed mortgage interest rate for the quarter	

Summary:

Washington state’s housing market was weaker in the fourth quarter of 2023, with sales and new building permits falling compared with a year ago.

The statewide median sales price for a single family home rose to \$583,200 in the fourth quarter, 2.8 percent higher than the same time in 2022.

The seasonally adjusted annual rate of existing home sales fell 26.9 percent from the fourth quarter of 2022—from 109,130 to 79,790. This means that if the quarter’s pace continued unchanged for a year, that number of homes would be sold.

Home prices rose in 17 of the state’s 18 metropolitan counties. Statewide, San Juan county recorded the highest relative increase of 34.4 percent. Median prices were lower than a year earlier in six counties, with prices in Walla Walla County decreasing by 0.6%.

Given the variety of locations and market diversity in the state, median housing prices are highly variable, ranging from \$229,500 in Lincoln County to \$1,267,900 in San Juan County (King County has the second highest median values at \$883,300).

Housing affordability rose in the fourth quarter from the previous quarter and fell from the previous year. That index—where 100 means a middle-income family can just qualify for a median-priced home, given a 20 percent down payment and a 30-year fixed mortgage rate at prevailing rates—was 61.1, down from 67.8 in the fourth quarter of 2022. This metric suggests that, given the same down payment and mortgage, a middle-income family had only 61.1 percent of the income required to purchase a home selling at the median.

Statewide, the first-time buyer affordability index rose by 1.7 points, ending the quarter at 43.6. This index assumes a less expensive home, lower down payment and lower income. This means that a household earning 70 percent of the median household income—as may be true of first-time buyers—had only 43.6 percent of the income required to purchase a typical starter home statewide.

Housing affordability varied widely across the state. The least affordable county is San Juan County, with Columbia County the most affordable. All 39 counties, especially those in the central Puget Sound region, present affordability issues for first-time buyers.

Affordability remains a challenge in the state’s housing market. Meanwhile, permitting activity is decreasing. In the fourth quarter of 2023, a total of 8,074 building permits were recorded, down 15.8% from the previous year.

Home Resales:

20.0%

Largest drop in seasonally adjusted quarter-over-quarter sales seen in **Ferry** county.

7.6%

Quarter-over-quarter decline in seasonally adjusted annual sales.

1,370

Largest drop in seasonally adjusted quarter-over-quarter sales in absolute terms seen in **King** county.

79,790

Seasonally Adjusted Annual Sales (SAAR).

7

Number of counties with sales rates at least ten percent lower than the previous quarter.

26.9%

Year-over-year decline in seasonally adjusted annual sales.

17 of 17

Number of Metropolitan counties with fewer sales than the previous quarter.

0 of 39

Number of counties with quarter-over-quarter sales increases.

36 of 39

Number of counties with a quarter-over-quarter decline in seasonally adjusted sales.

68.180

Seasonally adjusted annual sales rate in the 17 Metropolitan counties (**85.4 %** of state total).

Existing Home Sales (SAAR) Trend (Q4 2013 – Q4 2023)

Housing Construction:

135.1%

Greatest year-over-year increase in permits in a Metropolitan county (**Kitsap** county with **300** additional units).

55.1%

Greatest year-over-year increase in permits in a non-Metropolitan county (**Mason** county with **27** additional units).

8,074

Number of building permits issued during the quarter.

15.8%

Decline in year-over-year total number of permits.

12.5%

Decline in quarter-over-quarter total number of permits.

31.8%

Increase in year-over-year single family permits (**1,028** additional units).

40.0%

Decline in year-over-year multifamily permits (**2,547** fewer units).

15 of 16

Number of counties with more than a 10% increase in single family permits of the total number of counties with an increase in single family permits, as compared to one year ago.

20 of 22

Number of counties with more than a 10% decrease in single family permits of the total number of counties with a decrease in single family permits, as compared to one year ago.

4 of 4

Number of counties in the central Puget Sound that had a year-over-year increase in single family permits.

Median Home Prices Trend (Q4 2013 – Q4 2023)

Median Home Prices

Permits Issued (Single- and Multifamily) (Q4 2013 – Q4 2023)

Home Prices:

\$583,200

Median selling price of a single family home.

2.8%

Year-over-year **increase** in median selling price of a single family home.

9.3%

Year-over-year **increase** in Freddie Mac mortgage rates.

\$1,267,900

Highest median price in the state seen in **San Juan** county.

\$229,500

Lowest median price in the state seen in **Lincoln** county.

\$310,100–\$594,600

Range of prices in Micropolitan areas (**Adams** to **Island**).

6 of 31

Number of counties with year-over-year price increases of more than ten percent.

Big Players

Changes for the five largest counties by sales volume:

King 2.7%

Pierce 2.3%

Snohomish 0.4%

Spokane 0.9%

Thurston 4.0%

Prices by Bedroom:

\$411,500

Median price for a 2-bedroom single family home, a **3.3%** year-over-year **increase**.

\$587,600

Median price for a 3-bedroom single family home, a **15.4%** year-over-year **increase**.

\$472,000

Median price for a 4-bedroom single family home, a **7.2%** year-over-year **increase**.

Sales by Number of Bedrooms

4 of 17

Number of Metropolitan counties with price declines in 2-bedroom homes.

0

Number of Metropolitan counties with year-over-year price increases of 20% or more for 2-bedroom homes.

4 & 9

Number of Metropolitan counties with price declines in 3-bedroom and 4-bedroom homes.

Housing Affordability:

2.8%

Year-over-year increase in home prices.

Better & Worse

Statewide all-buyer housing affordability as compared to last quarter, and last year.

61.1

Statewide all-buyer housing affordability index.

23.6 to 135.8

Range of affordability index scores across the state, low in **San Juan** county, and high in **Lincoln** county.

30 of 39

Number of counties with statewide all-buyer affordability lower than a year ago.

48.0 & 50.8

Lowest affordability index values in Metropolitan (**Chelan**), and micropolitan (**Island**) counties.

43.6

Statewide first-time housing affordability index, **up** from the previous quarter, and **down** from last year.

0 of 39

Number of counties with a first-time affordability index greater than 100 (affordable).

34.2 to 60.4

Range of values for first-time affordability among metropolitan counties. Low in **Chelan** county, and high in **Franklin** county.

36.3 to 60.4

Range of values for first-time affordability among micropolitan counties. Low in **Island** county, and high in **Grant** county.

Housing Affordability Indices Trends (Q4 2013 – Q4 2023)

Availability of Affordable Housing:

\$93,600

Statewide median household income

\$58,600 to \$127,700

Range of median household income values. Low in **Ferry** county, and high in **King** county.

\$65,520

Statewide median household income for first-time buyers

\$41,020 to \$89,390

Range of median household income values. Low in **Ferry** county, and high in **King** county.

0.7%
Statewide inventory priced below \$80,000, **rose** from 0.5% from a year ago.

35 of 39
Number of counties with less than 2% of homes priced below \$80,000.

0% & 0%
Homes in **King** and **San Juan** counties below \$80,000.

2.0%
Statewide inventory priced below \$160,000, **increased** from 1.7% a year ago.

0.3% to 12.0%
Range of availability of homes below \$160,000 in Metropolitan counties. Low in **Spokane** and **Thurston** counties, and high in **Yakima** county.

Available Inventory:

8,939

Number of homes available for sale at the end of the quarter.

4,597 & 2,232

Decline from last quarter (34.0%), and **decline** from last year (20.0%).

1,222 & 995

Largest inventories seen in **King** county and **Pierce** county. Down 52.4%, and down 27.1% from last quarter.

0 of 1

Number of counties with more than 1,000 listings that had an increase over last quarter.

36 of 39
Number of counties with a decline in listings since the last quarter.

1.8
Month's supply of housing. 2.0 last quarter, and 1.8 last year.

0.8 to 8.9
Range of month's supply across the counties—low in **Snohomish** county, high in **Ferry** county.

20
Number of counties with less than five month's supply of homes priced over \$500,000.

0 & 2
Numbers of counties with more than a year's supply of homes, and more than a year's supply of homes priced over \$500,000.

Active Listings Trend (Q4 2013 – Q4 2023)

Months of Supply Trend (Q4 2013 – Q4 2023)

1. Home Resales are Center estimates based on MLS reports or deed recording.

2. SAAR means data presented at Seasonally Adjusted Annual Rates allowing qtr-to-qtr comparison.

3. Building permits (total) are from the U.S. Department of Commerce, Bureau of the Census. For less populous counties, building permit data since 2017 may be based upon sampled estimates.

4. Median prices are Center estimates of the point at which half of existing home sales occurred at higher prices and half at lower prices.

5. Affordability index measures the ability of a typical family to make payments on median price resale home. It assumes 20% downpayment and 30-year amortizing mortgage. First-time buyer affordability index assumes a less expensive home, lower downpayment, and lower income.

WCRER Estimates

Q1 2022 statewide median price has been revised to reflect reporting changes in key markets. County data remains unaffected. Please contact the WCRER for details.

Due to a change in data providers, home sales for Asotin and Garfield counties are reported separately starting with the 4th Quarter 2022 Housing Market Report, which affects estimates for both median price and seasonally adjusted rate of sales back to Q1 2021.

Source: Center Estimates

Housing Affordability Index measures the ability of a middle income family to carry the mortgage payments on a median price home. When the index is 100 there is a balance between the family's ability to pay and the cost. Higher indexes indicate housing is more affordable.

All loans are assumed to be 30 year loans.

All buyer index assumes 20% downpayment. First-time buyer index assumes 10% down.

It is assumed 25% of income can be used for principal and interest payments.

WCRER Estimates

Due to a change in data providers, home sales for Asotin and Garfield counties are reported separately starting with the 4th Quarter 2022 Housing Market Report, which affects estimates for both median price and seasonally adjusted rate of sales back to Q1 2021.
